***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 20-21, 49-56 and 58-60 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Salomaa et al.

See the appropriate paragraph of the 9/8/04 Office action.

***Election/Restrictions***

Applicant's election with traverse of group X in the reply filed on 1/13/05 is acknowledged. Applicants' have not traversed the election of group X or have indicated the election without traverse. However, Applicants' have not made any remarks that need to be addressed.

The requirement is still deemed proper and is therefore made FINAL.

***Response to Arguments***

Applicant's arguments filed 1/13/05 have been fully considered but they are not persuasive.

Applicants' acknowledge Salomaa et al. teach a servo motor, but traverse Salomaa et al. on the basis they do not teach the claimed "linear servo motor". The specification does not explicitly describe what a linear servo motor is and how it differs from a servo motor. Applicants' are encouraged to supply secondary consideration showing the state of the art that a linear servo motor would distinguish over a servo motor. In the absence of such a showing, the Office maintains the taught servo motor is

Art Unit: 1743

indistinguishable from the claimed linear servo motor since both accomplish the same functions.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
